Julio Adrián Miranda

Technology & Digital Transformation · Project Leader · Digital Health · Software & AI

Buenos Aires, Argentina · Available on-site, hybrid or remote · mirandajulioadrian@gmail.com · julio.devisebit.com · www.devisebit.com

PROFESSIONAL PROFILE

Technology executive with 15+ years designing, leading and delivering software, data and digital transformation projects in government and private companies: federal platforms at Argentina's National Ministry of Environment, innovation at the Buenos Aires City Government, and my own development company, DEVISEBIT SRL. Since 2024 I have applied that experience to healthcare, where I led the management and end-to-end digitalization of providers with health-insurer agreements, alongside first-rate mentors and professionals. A profile that reinvents itself at every stage.

> **What I offer:** software, AI (WhatsApp assistants, automation) and digital transformation projects through DEVISEBIT SRL, plus technology advisory by the hour or by project. **What I seek:** leadership or coordination roles in technology, digital transformation or projects in mid-size and large companies, with special interest in healthcare.

EXPERIENCE

Founder · Technology Project Coordinator — DEVISEBIT SRL

2009 – present

Technology company specialized in healthcare, government and institutions (formerly Web y Graf)

- Technology modernization of a union (2025): its training area turned into an online academy, internal registries digitalized and its health plan's administrative system, with a mobile app, digital ID card and social media marketing.
- Municipal benefits app; virtual classrooms, dashboards and the Graduate Programs Expo for UBA.
- Online academies: BA Emprende (Buenos Aires City Government), SODETEC Foundation and USL Academy. Also: healthcare CRM, AI-powered WhatsApp assistants, access control and electronic voting. Website and online appointment booking for the Sagrado Corazón Center (Merlo).

Management & Technology Coordination — MC SALUD SAS

2024 – Aug 2026

Healthcare management company · Medical leadership was in the hands of a licensed physician

- Coordinated the administrative and technology management of a long-term care residence, day centers and a health insurer's capitation plan, under a single management model.
- Implemented a CRM for members and providers (single registry, authorizations and traceability) and a 24/7 WhatsApp assistant for appointments, provider directory and digital ID card.
- Designed the management control dashboard: consumption per provider, cost per member and deviation alerts.
- Led the administrative team and the provider network: agreements, staggered payments and directory expansion.

General Manager — SAN PATRICIO SRL

Mar 2025 – Oct 2026

Home-care provider with health-insurer agreements

- End-to-end leadership of clinical, administrative and financial operations, with professional and administrative teams in charge; provincial and municipal licensing.
- Restructuring and full digitalization: in-house management system (patients, orders, visit scheduling, digital medical records and monthly closing) and an executive control dashboard.
- Automated AI-powered WhatsApp support, new brand and institutional website, and agreements with funders.

IT Services Coordinator — EFFI SOLUTIONS SAS

2024 – present

Buenos Aires company (virtual office) selling a national health plan in San Luis, Cuyo and across the country

- I advise and coordinate the commercial and technology service I provide to the company: strategy, operations and channels for self-employed workers, professionals and SMEs.
- Coordination of the call center and sales team on an in-house technology stack: multi-user CRM, conversion funnel, WhatsApp and a sales dashboard.

Technology & Digital Communication Advisor — Argentine Chamber of Deputies 2023 – 2025

- Technology, digital tools, innovation and digital marketing strategy.

Technology Advisor — Undersecretariat for Modernization and Digital Transformation, UBA 2021 – 2024

- Advised, developed and led teams on Rectorate projects: Faculty Competitions, Academic Map, Electronic File and modernization of the Higher Council with its voting system; Power BI dashboards.

Operations Manager — Metropolitan Design Center (CMD) Nov 2020 – 2023

Buenos Aires City Government · Ministry of Economic Development

- Directed a public innovation center of 14,000 m²: 70-box incubator, coworking, lab and a 250-seat auditorium. Team of 30.

Operations Manager, R&D — BA Technology Lab Sep 2020 – 2023

Buenos Aires City Government · Also: Operations Manager of Technology Linkage (Jul–Dec 2020)

- Bringing technology into production processes and prototyping for SMEs, universities and R&D centers. Team of 8.

Technology Coordinator — National Ministry of Environment and Sustainable Development Jul 2016 – Apr 2020

- Federal Environmental Monitoring Network (UNDP 16/002): air and water data with decision dashboards; deployment and training in every province and experience in neighboring countries.
- GIRO: federal hazardous-waste traceability, integrated with AFIP, CNRT and SENASA. Team of 15.
- 10+ systems in charge; inter-ministerial working groups with Modernization, MINCyT and INVAP.

Co-founder · Consultant — Think Solutions 2020 – 2021

- A year in Misiones on the tax project for the Misiones Tax Agency: assessment and improvement of technology services.

Earlier experience and Web y Graf 2009 – 2021

- Advisor, Buenos Aires Provincial Senate (2013–2016) · Web developer, Nexolife (2011–2013) · Webmaster, Grupo Visión (2009–2012) · Web y Graf: first digital newspapers of Catamarca; Catamarca Exporta and the provincial Expos; seven years with a national union (official website, health plan, IPLIDO, national soccer Cup and Culture); UBA Urology portal.
